 2-SIDED

The Elite line is the gold standard for a two-sided mattress, with consistent and long-lasting quality and a wide range of materials and firmnesses. The offset coil innerspring of the Elite mattress has more flexibility and support than a traditional bonnell coil. The double-sided design allows regular rotation to increase longevity and keep your mattress wearing evenly.

Integrity

✓ ADJUSTABLE

The inner support core of the Integrity mattress is made of pocketed steel coils that give independent suspension within the core frame. The textile pockets are fused to each other, allowing the springs to move independently, so there is less side-to-side motion transfer which means less partner disturbance.
